Turning Ideas Into Products That Grow.

We partner with founders and leadership teams to shape strategy, validate opportunities, build products and execute go-to-market across India

Founder Led

Built by entrepreneurs & experts who understand what it takes to build and scale businesses.

Hands-On

Work alongside your team to turn strategy into decisions, actions and outcomes.

Outcome Driven

Practical strategies designed to create tangible business impact-not just presentations.

Before you ask

You have questions. *We have straight answers.*

- **What exactly do you do?** We fix what is stopping your revenue from growing, across three areas: leads, sales, and retention. We find what is broken, do the actual work to fix it, and leave you with a system your team can run. Not advice, not a deck, real work.
- **What exactly do you do?** We fix what is stopping your revenue from growing, across three areas: leads, sales, and retention. We find what is broken, do the actual work to fix it, and leave you with a system your team can run. Not advice, not a deck, real work.
- **How fast can you start?** Quickly. You get a clear plan of what is broken and how we will fix it within 7 days of starting. Real changes follow in the weeks after.
- **Do you replace a full-time hire?** Often, yes, at least for a while. We also help you figure out whether you actually need that senior hire yet, and if you do, we help you hire the right person.
- **What does it cost?** Flat-fee engagements, scoped to your stage and what needs fixing. Roughly the cost of one senior hire, for a full team. We give you an exact number on the call, no hidden pricing.

OUR CAPABILITIES

Capabilities That Keep
Your Business Moving Forward.

At Kargatox, we bring strategy, customer understanding and marketing together to help businesses move in the right direction. We understand your audience, identify opportunities, design the right solutions and create the pathways to reach, engage and grow your market.

Services

We don't simply deliver research or marketing services. We become an extension of your team, working alongside you to understand your business, solve challenges and create sustainable growth.

Our hands-on approach starts with understanding your business, defining the right strategy, mapping your audience and learning how they behave. We then turn those insights into focused execution across consulting, technology and marketing.

Every engagement is driven by clear objectives and measurable KPIs, with transparent progress at every stage. You always know what we are doing, why we are doing it and how it contributes to your growth.

Research Services

Consulting & Research for Businesses: We believe quality insights are the bedrock of any successful strategy. Our Research team dives deep into big data and also conducts extensive field research to drive informed business decisions.

Sub Types

- **Market Research:** We harness the power of analytics to identify market trends and formulate practical action plans for business growth.
- **Consumer Behaviour & Satisfaction Analysis:** Our strategic research process decodes consumer behaviours, enabling you to empathise with your prospects and deliver personalized solutions that speak to their needs.
- **Campaign Analytics:** If it's not measured, it didn't happen! We provide a custom tech stack to help you understand and optimize key campaign performance metrics on digital as well as mainline platforms.

Marketing Services

Our strategists, designers, content creators, and digital specialists work together to build a strong digital presence for your business from everyday content and social media to high-impact campaigns designed to drive visibility, engagement, and growth.

We move the only number that matters. *Yours.*

Sub Types

- **SEO Services:** That Increase Organic Traffic & Qualified Leads Appear where customers are searching. Your customers are searching for products and services every day. If your business doesn't appear in search results, you're losing valuable opportunities. SEO determines how easily your business is found when customers search on Google. It's often the first digital interaction a potential customer has with your brand. Kargatox offers comprehensive Search Engine Optimization (SEO), Answer Engine Optimization (AEO), and Generative Engine Optimization (GEO) services that improve your website's visibility across Google Search, AI-powered search engines, voice assistants, and generative AI platforms. How we work

We do the work.

You keep the system.

Here is exactly what happens after you say yes.

Straight up: If we are not the right fix for your problem, we will tell you on the first call.

1. We listen: We sit in on your calls, talk to won and lost customers, and study your numbers. We learn what is actually happening before we touch anything. **Days 1 to 7**
2. You get the plan By day 7, you know exactly what is costing you revenue and the plan to fix it. Prioritized, clear, no fluff. **Day 7**
3. We build it We get into your CRM, your tools, your team. We do the actual work and wire the fixes into how you already operate. **Weeks 2 to 8**
4. We fix what is costing you Outbound, sales motion, retention systems, whatever the diagnosis called for. You see changes happening, not slides stacking up. **Weeks 4 to 10**
5. You keep the system We hand over the playbooks, dashboards, and a clear hire-or-don't-hire call. Your team owns it from here. The growth stays when we go. **Weeks 11 to 12**
